

YUNUS EMRE GULTEPE

FULLSTACK DEVELOPER

I am a software developer specializing in full-stack web development. I have extensive experience with a variety of technologies, along with my deep knowledge of JavaScript.

On the front-end, I create modern and user-friendly settings using the React library, while on the back-end, I develop RESTful services with Node.js and Express. In addition, I have knowledge of languages such as C++ and C# and have training in working on SQL and NoSQL databases.

I am a person who is compatible with teamwork, a fast learner and open to innovations. In addition to my success in projects, I also stand out with my effective communication and problem-solving skills.
