Hello! I'm Yunus Emre Gültepe, a fourth-year Software Engineering student at Sakarya University. My academic journey boasts a robust 3.36 GPA, driven by a keen interest in web development. I am currently studying abroad at AGH University of Science and Technology in Poland as part of the Erasmus+ program.

My expertise lies in leveraging front-end and back-end JavaScript frameworks, prominently including React.js for dynamic user interfaces and Node.js with Express for robust server-side applications. Beyond these, I possess practical experience in DevOps, Big Data, and Artificial Intelligence, complemented by a strong commitment to adhering to software development principles and crafting clean, efficient code.

I am enthusiastic about advancing my skills and contributing to innovative projects that push the boundaries of technology.
